Confirmation Letter

The Faculty of Mechanics and Mathematics of Ivan Franko National University of L'viv is grateful for the opportunity to host the teaching fellows from CERGE-EI and would like to express a continuing interest in the future cooperation. In particular, the Department of Mathematical Economics and Econometrics would like to include a one-year introductory course on Econometrics in the core curriculum for a new cohort of undergraduate students (but not restricted for attendance by other interested students) of the Department of Mathematical Economics and Econometrics. The two parts (Econometrics I in fall and Econometrics II in spring) are expected to be taught by two CERGE-EI graduates (Olena Chorna and Anatolii Savchuk, respectively).

This letter confirms arrangements for the course to be taught by Olena Chorna (a confirmation for Anatolii Savchuk will be sent separately) at the Faculty of Mechanics and Mathematics of Ivan Franko National University of L'viv, Ukraine. The introductory course on Econometrics are arranged for the fall (from October to December, 2018) semester. The course will be included in the core curriculum for undergraduate students at the Department of Mathematical Economics and Econometrics. The expected enrolment should be around 50 bachelor students. Study rooms for seminars and lectures will be provided.

Dean

I. Guran
