## **Institutional Report**

This letter confirms that Anatolii Savchuk has taught Advanced Econometrics and Data Science at the Faculty of Mechanics and Mathematics of Ivan Franko National University of Lviv, Ukraine.

I would like to inform you that we were really glad to host Anatolii. He presented interesting topics in both Econometrics and Data Science, demonstrated connection between these two fields and provided many practical examples that undoubtedly were valuable for our Master students.

During the classes, he was responsible and good organized. He helped our students to develop new skills and get the knowledge that they wouldn't be able to get without the teaching fellowship program.

We are very grateful to CERGE-EI for such a possibility.

23.05.2019

Marianna Oliskevych,

Professor at Department of  
Mathematical Economics and Econometrics,  
Ivan Franko National University of Lviv
